Chair Warranty Information

PEN warrants, to the original purchaser, the product to be free from defects in workmanship and materials for a period of (10) years for the following chair components:

- Cylinder
- Control Mechanism
- Seat and Backboard
- Foam
- Arms and Base

PEN warrants, to the original purchaser, the product to be free from defects in workmanship and materials for a period of (1) year for the following chair components:

- Chair Fabric
- Casters

This period begins from the time of shipment.

During the warranty period, PEN will repair or replace (at its sole discretion) such defects that are not the result of normal use.

PEN chairs follow and pass all current ANSI-BIFMA standards.

- ANSI-BIFMA: American National Standards Institution-Business Institution Furniture Manufacturers Association

Breathe

The sleek styling of the Breathe high-back mesh chair makes it the perfect addition in any organization. The Breathe chair offers a beautifully sculpted polypropylene back structure wrapped in a double layer mesh that offers the ultimate in support and breathability. The comfort is further enhanced by the soft, padded arms, adjustable lumbar support and synchronized tilt mechanism. The adjustability offers every user a number of positions to ensure an ergonomically sound position throughout the day.

Sled Base Chairs

- This model is also available without arms, has the same frame options as the four-leg chair with the unique "kick-back" leg. The non-stacking sled base glides effortlessly on carpeting.
- The sled base chair's back and seat are foam-cushioned and upholstered for maximum comfort. The compound curved backrest's 9-ply hardwood plywood is covered with an injection-molded polypropylene shroud.
- Chrome frame arm models have black arms and back shroud as standard, while chrome frame armless models have black plastic tube end-caps and back shrouds as standard.
- All Alta chairs—10-year limited warranty.

PEN offers a variety of fabric options. Please call for sample.

Cheyenne

The Cheyenne molded chair offers more durability and versatility for a stack chair at an affordable price. It works in any application where flexibility and resistance to wear is required of a high-density stack chair. Molded chairs have a higher curved back to provide for greater comfort and are available in many polypropylene (poly) colors. The Cheyenne is also available with fixed seat and back pads. These seat and backrest cushions are made for comfort. A transport dolly is also available. Both the padded and unpadded Cheyenne chairs stack. High-density stack seating and transport dollies make space reconfiguration easy. Quick and easy set up and tear down makes stack seating perfect for anything. Best of all, their stacking density means you can store a lot in a small space.

Nesting & Stackable Options

Dakota

Polypropylene

The Dakota molded chair offers durability and versatility at an affordable price. It works in training rooms, lounges, cafeterias, auditoriums or in any application where flexibility and resistance to wear is required of a high-density stack chair.

The polypropylene shell cleans easily, making the Dakota particularly appropriate for the healthcare environment. Molded chairs stack 45 high and are available in a variety of colors.

The chair frame is sturdily constructed of a 7/16" solid steel rod that can be finished in bright duplex nickel chrome plating or electrostatically applied epoxy.

Navigator

If you had to pick one word to describe Navigator Seating, it would probably have to be versatility.

With its sturdy four-leg design and articulating back, Navigator Seating provides your guests with a high degree of ergonomic comfort. But that's only the beginning. It also allows users to fold up the seat and nest several chairs together...then collectively move them to where they need to go.

The Navigator is a natural for conference or training rooms when you don't always know exactly how many people will be attending. With the Navigator you can quickly roll out extra stored seating as needed.
